Spirits! Spooks! Table Tapping!
a Sensational Expose

"The Mystic"

A Thrilling Exposure of Fake Spirit Mediums

Here is the first big picture to tear the veil of secrecy from the activities of beauties who bleed the rich by fake spiritualism, spooks and table tapping. You'll gasp with suspense and surprise at this daring picture of a girl medium, a man who uses her in a career of crime and of how Love finally rises above their sordid game. It will keep you guessing!

"Where Was I"

ANNUAL FLOWER SHOW

The annual flower show held under the auspices of the Women's Institute was held in the church on Saturday afternoon. Mrs. J. N. Beaulieu, past provincial president, formally opened the show; Mrs. F. C. Alcock, constituency convener, gave a short address and Mrs. C. H. Boner, president of Champion W.I., welcomed the guests. Excellent music was furnished by a number of Miss Wilson's pupils. There was a brilliant display of flowers, both garden and house grown, and exhibitors deserve the highest grades for the splendid display, the sweet peas deserving special mention. It is very doubtful if adults could have improved largely on the work of the school children. The prizes were awarded as follows: Sweet Peas, one color, 1st Marjorie Ferguson, 2nd Helen Hoskins. Sweet Peas, mixed, Marjorie Ferguson, Helen Hoskins. Gladiolas, 1st Laddie Dow. Aster, Marjorie Ferguson, C. and M. Gottenberg. Dahlias, 1st Marjorie Ferguson. Best Table Decoration, Marjorie Ferguson, Helen Hoskins. Zinnias, Gretchen McNaughton, C. and M. Gottenberg. Marigolds, George Smith, Gretchen McNaughton. Cosmos, 1st C. and M. Gottenberg. California Poppies, C. and M. Gottenberg. Bobbie Beaulieu. African Daisies, 1st Arthur Ulrich. Pansies, Barbara Wise, George Smith. Nasturtiums, Helen Hoskins, C. and M. Gottenberg. Special prize given for best variety of flowers, George Smith. Special for highest and largest Sunflower, Bobbie Beaulieu. Candytuft, 1st, C. and M. Gottenberg.

Poppies, 1st Miss Foster. Pressed Wild Flowers, Harry McNaughton, Gretchen McNaughton. The committee in charge consisted of Mrs. J. T. Stephenson, Mrs. U. G. Anderson and Mrs. B. Hummel and these were assisted by other members all of whom deserve praise for the completeness of the arrangements. The judges were Mrs. Boone, Mrs. Blachley and Mrs. Adam Ferguson. Tea was served during the afternoon and evening to a large number.

Miss B. Gibbons, of Calgary, is visiting her sister, Mrs. Milford Sisson.

THRESHING DELAYED

Everything was ready for the beginning of threshing on Monday and one machine, at least, did start. Rain began to fall about eleven o'clock, however, and ended progress in this direction. Monday's rain was followed by a series of showers which culminated on Tuesday night in a general rain, putting an effective stopper for the time being on all harvesting operations.

Great interest is being taken in a combination harvester being operated on the Bowman farm, south of town, and many different opinions prevail as to whether these machines can be successfully used in this part of the province. One thing is generally admitted, and that is that if it is possible the grain can be successfully saved in this way the cost of harvesting would be reduced to a fraction of the present amount. The final results achieved by the Bowmans might easily result in a revolution in harvesting methods in this vicinity.

It would appear that some method might be devised to take care of any harvesters who become stranded by inability to get to work in a reasonable time owing to weather conditions. The men are a necessity, and some system of relieving a few individuals of the necessity of helping them over enforced periods of idleness should not be hard to inaugurate. Systematically applied this would also prevent actual hoboism from victimizing individuals in one town after another.

A delightful afternoon was spent on Friday, Aug. 27, at the home of Mrs. G. E. Voisey, when the members of Golden Rule W.I. gathered to do honor to Mrs. Voisey and Miss Jewel Archibald, who are leaving to live in Calgary. A social time was greatly enjoyed and the good things partaken of, when Mrs. Voisey was presented with a beautiful piece of silverware and Miss Archibald with a fancy handkerchief.

Labor Day will be celebrated on Monday, Sept. 6.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50c cents for first insertion, 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, AUG. 26, 1920

GAS RATE INCREASE

The gas users at Calgary received a jolt this week when informed that the Natural Gas Company was going to put a new rate into effect after October 1st, when the old agreement expires. The new rate will be 10 cents higher. The company also for a gross 58 cents, net 53 per thousand rate for the first 50,000 feet consumed. The city will of course fight the increase to the last ditch. The fact that millions of cubic feet of gas is going to waste in the Turner Valley, 10 miles away does not appear to have any effect on the situation.

STRUCK GAS

While drilling for water on the site of the Ranchman's Oil and Gas Co., at Aldersyde a strong flow of gas was struck on Wednesday, the 25th inst., at a depth of 200 feet. This makes the third strike of gas on the Birt farm and the drilling of this last hole will be continued for a supply sufficient to meet the domestic uses of the neighboring farms and ranches.

HOW TO HANDLE STINKWEED

Stink weed plants have at the present time gone to seed. The problem that confronts us now is how to get these seeds germinated and destroyed. In fields where the crop is polluted with stink weed it is best to follow the binder with a disc-threshing machine, up the fallen seeds and giving them a chance to germinate. Then when the crop is threshed the field should be plowed and the young plants killed as stink weed does not winter kill. A lot of plants are bound up with the grain and threshed. In order to kill these seeds it is imperative to bury all straw piles as soon as threshed as well as the fool seeds under the machine. None of this straw should be fed or sold for feed. Neither should any green feed with stink weed in it be offered for sale. People are asked to take notice and govern themselves accordingly as the Department feels that drastic measures must be used against all delinquent persons.

WORST FIRE IN HISTORY

Here are some facts about one of the greatest forest fires in the history of Alberta and it is the first we have heard about it.

Location—North and west of the Athabasca river, to and probably beyond the B. C. boundary. Duration—Raging with varying intensity for the past two months, and not yet extinguished. Area—Four distinct fires, covering altogether a strip of country some fifty miles wide and from fifty to one hundred miles deep. Damage—Probably 200 square miles of country burned over, with a possible loss of 200,000,000 board feet of timber. In the almost inaccessible country north and west of the Athabasca river, a country of thick timber cut up by rivers and creeks and muskegs, four fires have been raging for the past two months. Today, there are 60 men still on patrol along the edges of these conflagrations, and while it is believed that immediate danger is now passed, continued dry weather this fall will mean a further spread of the flames.

Mr. C. S. Wankburn, salesman for the Lacombe nursery, is in the district and reports orders for fall and spring delivery of trees being taken at a brisk rate of speed and is pleased to be able to report good progress in the growing trees despite the windy summer.

The automobile and good highways is familiarizing people with the geography of our own country and the United States as nothing else has done. Daily we see tourists from all over the continent passing through or spending the night at our auto camp and incidentally they all spread a little money in the town.

PUBLIC INSTITUTIONS

Galt Hospital, Lethbridge

First-class Hospital Service at reasonable rates. Private, Semi-Private, and Public Ward accommodation for surgical and medical cases. Separate Case Room for obstetrical purposes.

X-Ray, Bio-Chemical Laboratory, and all modern hospital facilities controlled by fully trained operators. Registered Graduate Nurses in charge of each floor.

Under direct supervision of Provincial Department of Public Health affording maximum protection to public.

School for nurses. Inspection invited. Write for full particulars. Enquiries willingly answered.

THE BELOVED BOSS

Theodore Roosevelt, ex President of the U. S., was Exceedingly Human According to his Butler

A series of interesting articles appeared in recent issues of Collier's Weekly, entitled "The Beloved Boss" written by James Amos. He was closely associated with Theodore Roosevelt for many years as butler, valet and "houseman." In the White House and at Oyster Bay, he knew the real Roosevelt as did few others. Roosevelt was a deeply religious man. He was a member of the Dutch Reformed church but attended the Episcopal church. Like some men we know, Roosevelt could not sing a note. He liked to hear music but he could not produce any. In his quiet hours, he could be heard trying to sing "Nearer My God to Thee," "Jerusalem the Golden" and "O Paradise, O Paradise" which shows that Roosevelt had a sentimental liking for the old fashioned hymns and the old fashioned religion. It was his opinion that the man who didn't read the Bible was a fool. He was a good story-teller and his stories were usually of his own experiences. He was fond of telling stories of his early days with the Rough Riders. One was about an old Rough Rider who had gotten into trouble in the West. He had been indicted for shooting a woman. He wrote Mr. Roosevelt at the White House asking him to do something to help him.

"They got me up for shooting a woman," the letter read. "But I'm really innocent. I can prove I wasn't aiming at the woman at the time. I was shooting at my own wife." Another of these stories told of another Rough Rider who was indicted for murder in a far western state. He wrote the President asking for a loan of \$200 to hire a lawyer to defend him. The killing had taken place in some sort of ranch brawl. The president never turned a deaf ear to any of the Rough Riders who called on him for help—and the calls were numerous. So he sent the requested \$200, never expecting to see it again. However, a short time later, much to his surprise, he got another letter from the same man returning the \$200. The letter said in substance—

"Dear Teddy: I'm sending back the money I borrowed to me at my trial. We didn't need to have no trial. We are elected by WORLD HAPPENINGS
BRIEFLY TOLD

The Norge, Amundsen's arctic ship which flew over the North Pole, has been sold to the Italian Government for a million lire.

Substantial allowances have been found insufficient by officers and men of the Royal Canadian Air Force, leading to a strike, and it is to be increased.

According to a radio message received at Halifax, the Marcellin cable is off the coast of Labrador, homeward bound, and reports "all well."

Appointment of Rev. Canon Alfred J. Vale, of Hay River, North West Territories, to be a judge of the peace in and for the North West Territories, is posted in The Gazette.

The head office of the Pioneer (Alta.) Stockyards, Limited, is to be changed from Edmonton to Toronto, and the number of directors will be reduced from seven to five.

Fires, which swept with incredible rapidity through the stables and warehouse of the Manitoba Cattle Company, Winnipeg, caused property damage estimated at \$120,000.

Queen Marie of Roumania, who expects to call soon on a visit to Canada and the United States, has been business matters to conclude before she decides definitely the date of her departure.

The transfer of Superintendent A. B. Allard, of the Royal Canadian Mounted Police from Regina to Dawson was confirmed by the various quarters. Ottawa, Superintendent W. P. Lindsay, Edmonton, succeeds Regt. Allard in Regina.

It is estimated that the residents at the first cricket test matches between Australia and England reached a net total of \$145,000, half of which goes to the Australians, while \$120,000 is taken by the government as entrance tax.

A parachute 50 feet across, invented by Harry A. Hughes, test machine, let's make in the United States Navy, in an initial test, brought a plane and pilot to earth from an altitude of 2,500 feet, after the engine had been killed. The plane landed on a hillside and broke a propeller blade and its running gear, but otherwise no damage was done.

No Use For Conscientious Objectors

International Democratic Congress For Peace Unanimous on this

Although the International Congress for Peace has been in session for less than a year, its findings that conscientious objectors, in countries with conscription, military service, be forced to perform work equally hard and disagreeable for the same period as those who serve in the army.

The delegates, numbering eight, E. 600, ended the congress in complete unity, despite the fact that they represented twenty-two nations with different ideas. One point emphasized by the delegates was that poor youths should have the same chance for higher education as the sons of the wealthy classes in countries where, unlike Canada, working one's way through college is unknown.

Maimed veterans of the great war told of their actual experiences at the front and urged the need of international peace at the congress.

Japan Changes Emigration Policy

Will No Longer Encourage Countrymen to Emigrate to Canada

Homefront Japan intends to colonize Hokkaido, Formosa, and other possessions, but in future does not intend to immigrate to Canada, Australia and other countries, realizing that the previous policy caused much trouble, and ill-feeling, a foreign office spokesman announced in Tokyo.

The spokesman declared that Japan had reversed its entire emigration policy, after discovering the reality and folly of previous efforts to send out its excess population to places where it is not wanted.

The present policy is to increase trade with other countries, especially those of the South Pacific, with all efforts of manufacturers and industrialists concentrated on lowering costs and building up exports, he said. He announced that a South Pacific trade conference would be held at Tokyo on October 6.

"Men lived on an average to a greater age in years ago than they do now."

"Yes, there were no automobiles then, only unimproved sleds and such watercraft slaughtering tools."

W. N. U. 1644

The Country And Its Consuming Population

By C. W. Peterson

With comparatively few exceptions, the country towns of Canada have been going down hill for years. Various causes have been ascribed to this disturbing phenomenon: chiefly improved highways and the general rise by farmers of automobiles, which enable them periodically to do their trading, and, incidentally, indulge in recreation, in the cities, thus cutting off an enormous volume of farm labor employed and, consequently, the consuming population tributary to the country town. Rural mail delivery has largely cut out the visit to the post office and to the store.

But new possibilities are opening up for the smaller centres. It is a fundamental fact that organized life passes through crises and, automatically almost, out of them again. Every spell of depression in human affairs is just the winter period which precedes the dawn of spring. While old kinds of business have disappeared, new kinds of business have appeared in the towns. There are the sales agencies for automobiles and trucks. Every town has them. The man in charge is related also to thousands of others like him in a wonderful system of salesmanship in human affairs.

The towns are also to be larger and better implanted houses, tractor agencies and filling stations.

The towns are also to be larger and better implanted houses, tractor agencies and filling stations.

The towns are also to be larger and better implanted houses, tractor agencies and filling stations.

The towns are also to be larger and better implanted houses, tractor agencies and filling stations.

The towns are also to be larger and better implanted houses, tractor agencies and filling stations.

Local and General

V. McClure left for Calgary recently.

Found—Boy's coat, with belt. Owner call at Chronicle office.

Dr. Williams and family, of Calgary, visited Mr. and Mrs. W. C. Hoskins on Friday.

Mrs. G. Voisey and son, accompanied by Miss Jessie Archibald, left for Calgary on Sunday.

Geo. Harper Sr., of Spokane, is here on his usual fall trip and will remain until threshing is completed.

The two-year old son of Rev. and Mrs. Lee was operated on recently in Calgary and is still in a critical condition.

J. Fred Scott, barrister will not be able to be in Champion on Saturday, Sept. 4, but will be here as usual on Sept. 11.

M. A. McNaughton, of Wausau, N.Y., arrived here this week on his annual visit and was welcomed by many old friends here.

S. Galbraith, of Vulcan, was in town on Monday apparently to forward the interests of the Conservative candidate. Mr. Galbraith has made new discoveries, according to statements reported to have been made here, involving the Liberal leader with bootleggers. What next?

The Little Bow constituency conference of the Alberta Women's Institutes will be held in McCullough's hall, Champion, on Monday, Sept. 27.

A very enjoyable evening was spent at the home of Mr. and Mrs. Fisher on Wednesday evening of last week, when Edwin entertained some twenty of his friends.

Mr. and Mrs. Geo. Harper and family left on Monday for Granum, where the former will be principal of the school, with Miss Gladys Woodhull as assistant.

RECLAIM BARREN LANDS

The United States forest service, co-operating with several states in re-foresting barren lands at a rate of 12000 to 16000 acres annually and at that rate it will take from 600 to 700 years to reforest the present denuded areas. It is a slow and indefinite process as the people of cut-over states in older regions know by experience.

Meanwhile we wonder what Canada is doing in the way of re-foresting timber lands destroyed by fire, axe, saw and parasite killing. The recent fire in B. C. and Alberta destroyed a lot of valuable timber and efforts should be made to plant seeds and trees on land that is today an eyesore to those who travel over the blackened and denuded country. Our feeble efforts at reforestation seems pitifully small when set in contrast with the terrific destruction of our forests that is now going on. It is interesting to note that New York State distributed ten million young trees for planting in 1925 and expects to increase its output to forty-seven million in 1927.

We wonder what Canada is doing in that respect.

THE WHEAT POOL AND TRADING IN FUTURES

IN the Chicago Price Current Grain Reporter, the organ of the Chicago Grain Trade, there appeared early in August an article referring to the delivery of three million bushels of wheat on the last day of July by the Pool. The cover sales made on the July option. The Central Selling Agency of the Canadian Pool felt at the time that the article was not worth much attention. Recently, however, it has appeared as a paid advertisement in the form of a news item in practically all of the Western Canadian weekly newspapers. This advertisement was sent out by a general advertising agency already set up in stereotyped plate forms with the following instructions to the newspaper:

"Do not add printers' or advertising marks of any kind to the plate."

In view of this organized effort to misrepresent the transaction to the farmers of the west, the following facts are hereby given:

On July 1st the Sales Department of the Canadian Pool knew of the existence of a short interest in July wheat. July is the one month in the year when there is the least amount of wheat, when the grain trade or the farmers, available for delivery and when attempts are most frequent at the part of speculators to squeeze the market. It then became evident that an attempt of this sort was to be made.

The Pool had in store a large quantity of No. 3 Northern wheat for which there was a demand. In competition with which on the world market there was a considerable quantity of No. 2 Hard Winter wheat from the United States, which was selling at from 18 to 22 cents under Canadian No. 1 Northern wheat. The Pool felt they should sell at the price of their wheat, especially as they were able to sell No. 3 Northern wheat at around 10 cents per bushel over the price at which No. 2 Hard Winter wheat was being sold. The "long" interests in July wheat acted apparently on the assumption that the Pool would not step into the market at this time and they were, therefore, naturally surprised when, instead of being able to force a cash settlement with the "short" interests at the close of the month, they were faced with the actual delivery of this wheat. With the expiration of the July option and the pricing of the bubble, the men who had attempted to squeeze the market found themselves with a large quantity of wheat on hand which they had bought at the inflated July price and which they would now be compelled to dispose of in competition with the American wheat. In the meantime the Pool had obtained for its members a very good price for their wheat.

The Pool is charged in the article referred to with having depressed the market by the delivery of this wheat, yet, as a matter of fact, No. 1 Northern wheat is at the time of writing trading slightly above the price at which it stood on July 1st. The statement is also made that the Pool had been throwing wheat on the market during the month of July in quantities which had checked advances. This statement is also disproved by the actual figures. On July 2nd the price was \$1.09, on July 31st it was \$1.59 1/2 and the high point reached between these dates was \$1.62 1/2.

The charge is also made that the Pool is speculating in futures contrary to its expressed principles. The fact is that the Pool takes advantage of every available market to dispose of the farmers' wheat and on this occasion it happened that the attempted corner gave the Pool an opportunity to sell a quantity of wheat which they had actually at their disposal at a price which was temporarily higher than other markets offered. The Pool was not selling paper wheat with the object of buying it in again at a lower price, which is the method of the speculators, but was disposing of farmers' grain which they had for sale.

These are the facts of the operation and show that the "long" interests in July wheat lost out in their efforts to rig the market for their own benefit, while the Pool had succeeded in marketing, at a very satisfactory price, a large quantity of wheat.

The above article issued by the Central Selling Agency of the Canadian Wheat Pool.
